

Project Executable Files

Date	06 July 2026
Team ID	
Project Name	Smart Lender - Loan Eligibility Prediction System
Maximum Marks	3 Marks

Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	NA
5	Environment configuration file (.env.example or similar)	No/NA
6	Deployed application URL (if hosted)	No
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	NA
9	Test files and test results	No
10	Demo video or walkthrough (if required)	Yes

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

```
SmartLender/
├── app.py
├── train_model.py
├── loan_model.pkl
├── requirements.txt
├── README.md
├── static/
├── style.css
├── templates/
├── index.html
├── dataset/
└── loan_data.csv
```

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	No Deployed
Login Credentials (Demo)	Not Required]
Platform / Hosting Provider	[e.g., Render, Vercel, AWS, Heroku, Azure] Local System
Repository Link	
Demo Video Link	

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

Pre-requisites

1
Works only with trained dataset
Can be improved using more data
2
No user authentication
Can be added in future
3
Runs locally only
Can be deployed later on Render/HerokuPython 3.10+
VS Code
pip

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Works only with trained datasets	Can be improved using more data
2	No user authentication	Can be added in future
3	Runs locally only	Can be deployed later on Render/Heroku
